2004 Further enlarged the Clinic; built a special operating theatre; won a European Union tender
2005 Implemented Hi-Tech dentistry (the Clinic owns almost every important device used in dentistry)

Characteristic personal features in work:

Utmost precision, imposing full workshop discipline, committed to continual study and innovation, demanding in extreme in terms of quality but always abiding to rational practicality, able to accept high workload.

Private life:

Although I do not live with my daughter, son and their mother, I maintain a very good relationship with them. My partner specialises in dento-alveolar surgery. My hobbies are my work, gardening and collecting vintages.
